

Class: IT11 B HTML Lesson 3	Unit: HTML	Start on-line resume
Objective: Apply document structure, paragraph formatting, and character formatting to start your online resume		

1. Create the opening page of your HTML resume. There will be three pages total when we finish. Page 1 is education, page 2 is work experience, and page 3 is hobbies and interests.
2. Your first page will be named resume.htm. Start note pad and create a basic html document structure.
3. Change the body color and the text color.
4. Add a centered H1 heading with your name.
5. Add a centered H3 heading with your address
6. Add a centered `<br>` and add your phone number.
7. Add a centered `<hr>`.
8. Left align a H2 heading and type "education".
9. Start a new paragraph.
10. Add a font that is +2 and type "Schools Attended"
11. Using a blockquote, and normal font add your schools attended with a `<br>` after each school using a normal font.
12. Save your document.
13. Bonus, change text colors, use bold, italics. Try the `<pre>` tag.
